

# CATO Machine screws

**Pan Head**

**Flat 82°**

CATO Machine Screws are designed to fasten a variety of elements, creating a secure connection between the screw and nut or the pre-threaded hole. Widely used across industries for assembly and product manufacturing, they meet high-quality standards.

We manufacture our screws with a **HEART OF STEEL** and the highest quality standards, following the ASME B18.6.3 standard, featuring ordinary threads (UNF and UNC class 2A as per ASME B1.1).

As an ISO 9001:2015 certified company, our focus is on delivering the highest quality products to our customers.

We also undertake special manufacturing requests, even for small batches.

## Applications

- Electrical appliances for construction.
- Household appliances and electronic equipment.
- Machinery manufacturing.
- Manufacturing of metal and wood furniture.

## Characteristics

<b>Material</b>	Low- carbon steel 1018
<b>Finish</b>	Zinc plated >96h*

\*Hours in the salt spray chamber without red rust as per ASTM B117.

## CATO Machine Pan & Flat 82°

Screw Size	Length								
	3/8"	1/2"	3/4"	1"	1 1/4"	1 1/2"	2"	2 1/2"	3"
1/8" (#5 - 40)	•	•	•	•	•	•	•		
5/32" (Whitworth)	•	•	•	•	•	•	•	•	•
3/16" (#10 - 24)	•	•	•	•	•	•	•	•	•
1/4" - 20		•	•	•		•	•	•	•

Note: Upon special request, we manufacture other types of heads, recess, tips, and finishes, as well as lengths of up to 4" with partial threads of up to 3".
